# Newborn Art

by Elli Cassidy

For a newborn photographer the window of time that a baby sleeps for is precious. Ideal for all levels of photographers, Elli will share tips and tricks she has developed to increase productivity, including sleep techniques that work with babies, demonstrate how to make the most of that time, transitioning quickly and safely between posing and props.

This course will help you create a varied gallery of images for your client to view, maximising your profit, whilst still capturing those beautiful 'Wow' shots.
